

Risk Management Program

RISK MANAGEMENT & ABILITY ANALYSIS

When it comes to risk management and security classified critical infrastructure and services, AFRY has a proven history in documenting, analyzing, quantifying and mitigating risk. Using expert interviews and workshops to guide management on company, group and board level. Our methods are based on proven methodologies and standards like ISO 31000 (Risk management) and ISO 22301 (Security and resilience).

OUR DIFFERENTIATED CUSTOMER OFFERINGS
