

## Gaining Bioindustry insights

### AFRY Smart: Business intelligence for Bioindustry

Fast and easy access to relevant, reliable information sources whenever you need. AFRY Smart is an advanced online analysis portal that provides you with high quality, up-to-date data within bioindustry sector.

Our cloud-based analysis portal enables you to have the latest industry and market analyses at hand to support strategic decision-making, investment planning and competitor/customer monitoring. AFRY Smart service is tailored for every client – you select the service scope that exactly fits your needs.

AFRY Smart leverages data that has been gathered from public sources every day for the last 40 years. This unique data set also includes results of advanced modelling and analysis of our industry experts.

#### BIOINDUSTRY OFFERING BY SECTOR:

- Forestry & biomass
- Wood products
- Pulp, paper, packaging board, tissue
- Advanced bioproducts
- Packaging converting

#### ONLINE ANALYSIS DATA & TOOLS COVERS:

- Mill technology details
- Industry structure
- Cost competitiveness
- Market data with forecasts
- Investment plans

#### YOUR BENEFITS

- One portal covering entire bioindustry value chain from forests to end products
- Unique, high quality, up-to date bioindustry data
- Access to AFRY's advanced analytics
- Fast support for strategic decision making
- Flexible and intuitive user experience

## MILL TECHNOLOGY DETAILS

Technical features and details of industrial scale mills globally in the bioindustry value chain.

## INDUSTRY STRUCTURE

Ranking lists/leading companies in a selected product and geography. Benchmarking of assets in the selected bioindustry field.

## MARKET DATA WITH FORECASTS

Historical market development and long-term outlook by grade and by country and region.
