Our offers

INFRASTRUCTURE

The division offers engineering and consulting services for buildings and infrastructure, for example in the areas of road and rail as well as water and environment. The division also operates in the fields of architecture and design.

ENERGY

The division offers engineering and consulting services in energy production from various energy sources such as hydro, gas, bio & waste fuels, nuclear power and renewable energy sources as well as services in transmission & distribution and energy storage.

INDUSTRIAL & DIGITAL SOLUTIONS

The division offers engineering and consulting services in the areas of product development, production systems & equipment, IT and defence. The division operates in all industry sectors with an emphasis on vehicles and food & pharma.

AFRY X

The division primarily offers consulting services in digitalisation. The division helps organisations digital transformation to reshape their businesses for the digital age. Key sectors are industry, energy and the public sector.

PROCESS INDUSTRIES

The division offers engineering and consulting services, from early stage studies to project implementation, in the areas of digitalisation, safety and sustainability solutions. The division operates in pulp and paper, chemicals, biorefining, mines and metals, as well as growth sectors such as batteries, hydrogen, textiles and plastics.

MANAGEMENT CONSULTING

The division works to meet challenges and opportunities in the energy, bioindustry, infrastructure, industry and mobility sectors through strategic consulting, forward-looking market analysis, operational and digital transformation as well as M&A and transaction services.
