ÅF wins consulting projects in Vietnam

ÅF has been awarded two contracts to serve as an advisor to the cities of Quy Nhon and Nha Trang in Vietnam. ÅF's task is to support the management of the cities' utilities in the fields of waste management and water treatment. The projects are funded by the World Bank.

In an additional consulting project, ÅF will serve as an advisor to Vietnam's Ministry of Finance. This assignment involves securing the environmental and social compatibility of local infrastructure projects, which will be financed by the Local Development Investment Fund of the World Bank.

The total value of these consulting services for ÅF is more than USD 2 million.

ÅF has an office in Hanoi and has been established in the Vietnamese market for over 15 years. ÅF has implemented over 30 major projects in Vietnam, ranging from large hydropower dams, pulp and paper mills, and coal and gas-fired power plants to urban development and environmental projects.

Corporate Information
