ÅF wins major order from Stockholm Vatten

ÅF has won a major order from the Swedish water utility Stockholm Vatten VA AB, which intends to replace the existing control systems at its water purification plants in Henriksdal and Bromma.

The order is worth approximately SEK 125 million (approx. 13.25 million euros) for ÅF.

For ÅF's part, the project involves supplying new system control equipment and engineering competence that includes surveying work, hardware design, documentation, program configuration, programming, testing and commissioning.

ÅF's work on the project will be carried out in around 15 stages and is scheduled for completion by spring 2012.

ÅF AB
Corporate Information

ÅF is a leader in technical consulting, with expertise founded on more than a century of experience. We offer highly qualified services and solutions for industrial processes, infrastructure projects and the development of products and IT systems. We are also a leading name in testing and inspection. Today ÅF has 4,000 employees. Our base is in Europe, but our business and our clients are found all over the world.
