ÅF signs IT agreement with Hertz Scandinavia

ÅF has, through its Systems Division, signed an agreement for the provision of IT services to Hertz Scandinavia. Hertz is one of Scandinavia's leading car rental companies.

The agreement is worth approximately SEK 5 million per year for ÅF.

ÅF will be the principal supplier of administration services and development support for Hertz Scandinavia's business systems.

"We are happy and proud to be entrusted by Hertz Scandinavia with developing and administering the company's business support systems," says Johan Olsson, President of ÅF's Systems Division.

"We chose ÅF because of the company's long years of experience in systems management, its industrial mindset and the long-term perspective that characterises ÅF's collaboration with clients," says Niklas Siljeblad, CIO for Hertz Scandinavia.

ÅF has already signed a similar agreement with the Volvo retail organisation's development company, Volvohandeln Utvecklings AB, to administer the client's retail business systems.

AB Ångpanneföreningen
Corporate Information

The ÅF Group is a leader in technical consulting, with expertise founded on more than a century of experience.

We offer highly qualified services and solutions for industrial processes, infrastructure projects and the development of products and IT systems. We are also one of the leading names in testing and inspection.

Today the ÅF Group has almost 4,000 employees. Our base is in Europe, but our business and our clients are found all over the world.
