

ÅF - one of Sweden's most popular employers

ÅF is proud to be one of Sweden's most popular employers among young professionals, and also industry best.

Universum Global publishes its annual ranking of the most attractive employers in Sweden among young professionals. *Karriärbarometern* is a comprehensive survey of career, work life and future. More than 19,000 professional graduates have participated in the survey and voted for Sweden's most attractive employer.

This year's result shows that ÅF is ranked as industry best, and also takes the fourth place in the two categories M.Sc. Engineers and B.Sc. Engineers, when Sweden's young professionals rank their dream employers.

"It's important to us being ranked as an attractive employer as we grow fast and therefore have a great recruitment need. We are happy to be ranked as the best in our industry among young professionals", says Emma Claesson, HR and Communications Director at ÅF.
